

Assessment 1

KA01 – Land off Derby Road and Coxmoor Road, Kirkby-in-Ashfield

Date: 24/9/14 Survey by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Approximately 1/3 of the area boundaries adjoin existing settlement. • Development of this whole area would not 'round off' existing settlement. • The area is well contained by strong physical features. Boundaries are formed by the A611 in the east, existing development to the south and south-west and a plantation in the west, and Coxmoor Road in the north east. Hedgerows (shown on the 1835 Sanderson Map) form the remaining boundaries (approximately 1/7). • The area is visually connected to the existing settlement in the south. • The land is undulating.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> • Development would not extend beyond the existing urban area to the east and would therefore not reduce the size of the 3km gap between Kirkby-in-Ashfield and Ravenshead (Gedling Borough). • The existing gap between Kirkby-in Ashfield and Mansfield to the north is approximately 3km. Development of this area would result in a reduction of approximately 1km, or 1/3. Development would therefore result in a moderate reduction in the gap.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • Some inappropriate development – residential, cattery/kennels. • The area is predominantly open countryside in character however a small parcel of land off Richmond Road is more urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the area will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	9	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA01 / Site 1 - Land off Derby Road and Coxmoor Road, Kirkby-in-Ashfield**

Date: 24/9/14

Survey by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)
Check the unrestricted sprawl of settlements	1	<ul style="list-style-type: none"> • Adjoins the existing settlement of Kirkby on two boundaries to the south and west. • Site does not extend beyond the existing built development. • Site slope gently from urban edge to the west down towards the A611 in the east. • Well contained by the A611 to the south east and by a mature/well managed hedgerows (shown on the 1835 Sanderson Map) to the north east. • Visually connected to the existing built up area.
Prevent neighbouring settlements from merging into one another	1	<ul style="list-style-type: none"> • Site forms part of the 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Ravenshead in Gedling Borough to the east. • Development of this site would not extend beyond the furthest point of the existing built area, and would therefore not reduce the gap between settlements.
Assist in safeguarding the countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • Site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	8	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA01 / Site 2 - Land off Derby Road and Coxmoor Road, Kirkby-in-Ashfield

Date: 24/9/14

Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Site adjoins the existing settlement of Kirkby to the west on 1 boundary. • Part of the site area visually connected with the existing settlement. • The majority of the site is arable farm land. A residence with paddocks and overgrown scrub land lies to the east of the site where it adjoins the main urban area of Kirkby. • Well contained by woodland to the north/west, A611 to the south/east and hedgerows (shown on the 1835 Sanderson Map) to the north/east and south/west.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> • Site forms part of the 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Ravenshead in Gedling Borough to the east, and also forms part of a 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Mansfield to the north east. • Development of this site would not extend beyond the furthest point of the existing built area between Kirkby-In-Ashfield and Ravenshead, and would therefore not reduce the gap between these settlements. However, development of this site would marginally reduce the gap between Kirkby- In-Ashfield and Mansfield.
Assist in safeguarding the countryside from encroachment	4	<ul style="list-style-type: none"> • Limited inappropriate development – residential. • Site is predominately open countryside in character. A small area to the south west of the site, where it adjoins the existing settlement is urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	11	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA01 / Site 3 - Land off Derby Road and Coxmoor Road, Kirkby-in-Ashfield**

Date: 24/9/14

Surveyed by: JC& LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> Plantation forming a long limb into countryside. Small part of southern boundary adjoins the existing settlement of Kirkby. Remaining boundaries formed by the edge of the plantation (shown on 1835 Sanderson Map). Visually disconnected to the existing settlement.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> Site forms part of the 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Ravenshead in Gedling Borough to the east, and also forms part of a 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Mansfield to the north east. Development of this site would not extend beyond the furthest point of the existing built area between Kirkby-In-Ashfield and Ravenshead, and would therefore not reduce the gap between these settlements. However, development of this site would marginally reduce the gap between Kirkby- In-Ashfield and Mansfield. No inappropriate development.
Assist in safeguarding the countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	13	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA01 / Site 4 - Land off Derby Road and Coxmoor Road, Kirkby-in-Ashfield**

Date: 24/9/14

Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> The site does not adjoin the existing settlement of Kirkby. Visually disconnected from the existing settlement. A611 forms a defensible boundary to the south east and hedgerows (shown on the 1835 Sanderson Map) form the remaining boundaries, although these in parts in poor condition. Not visually connected to the existing settlement.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> Site forms part of the 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Ravenshead in Gedling Borough to the east, and also forms part of a 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Mansfield to the north east. Development of this site would not extend beyond the furthest point of the existing built area between Kirkby-In-Ashfield and Ravenshead, and would therefore not reduce the gap between these settlements. However, development of this site would marginally reduce the gap between Kirkby- In-Ashfield and Mansfield.
Assist in safeguarding the countryside from encroachment	2	<ul style="list-style-type: none"> Large amount of inappropriate development - approximately ½ the site occupied by a cattery and boarding kennel. Remainder of the site is laid out to paddocks and stabling.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	10	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA01 / Site 5 - Land off Derby Road and Coxmoor Road, Kirkby-in-Ashfield

Date: 24/9/14

Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> The site does not adjoin the existing settlement boundary. Contained by the A611 to the south/east, Coxmoor Road to the north/east, plantation to the south/west and a hedgerow (shown on the 1835 Sanderson Map) to the north/west and south/east. Not visually connected to the existing settlement.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> Site forms part of the 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Ravenshead in Gedling Borough to the east, and also forms part of a 3 kilometre gap (approximately) between Kirkby-In-Ashfield and Mansfield to the north east. Development of this site would not extend beyond the furthest point of the existing built area between Kirkby-In-Ashfield and Ravenshead, and would therefore not reduce the gap between these settlements. However, development of this site would marginally reduce the gap between Kirkby- In-Ashfield and Mansfield.
Assist in safeguarding the countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development. Series of undulating arable fields visually forming part of the wider open countryside.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	13	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 1**KA02 – Land off Derby Road/Blidworth Road, Kirkby-in-Ashfield****Date:** 24/9/14**Surveyed by:** JC & LF

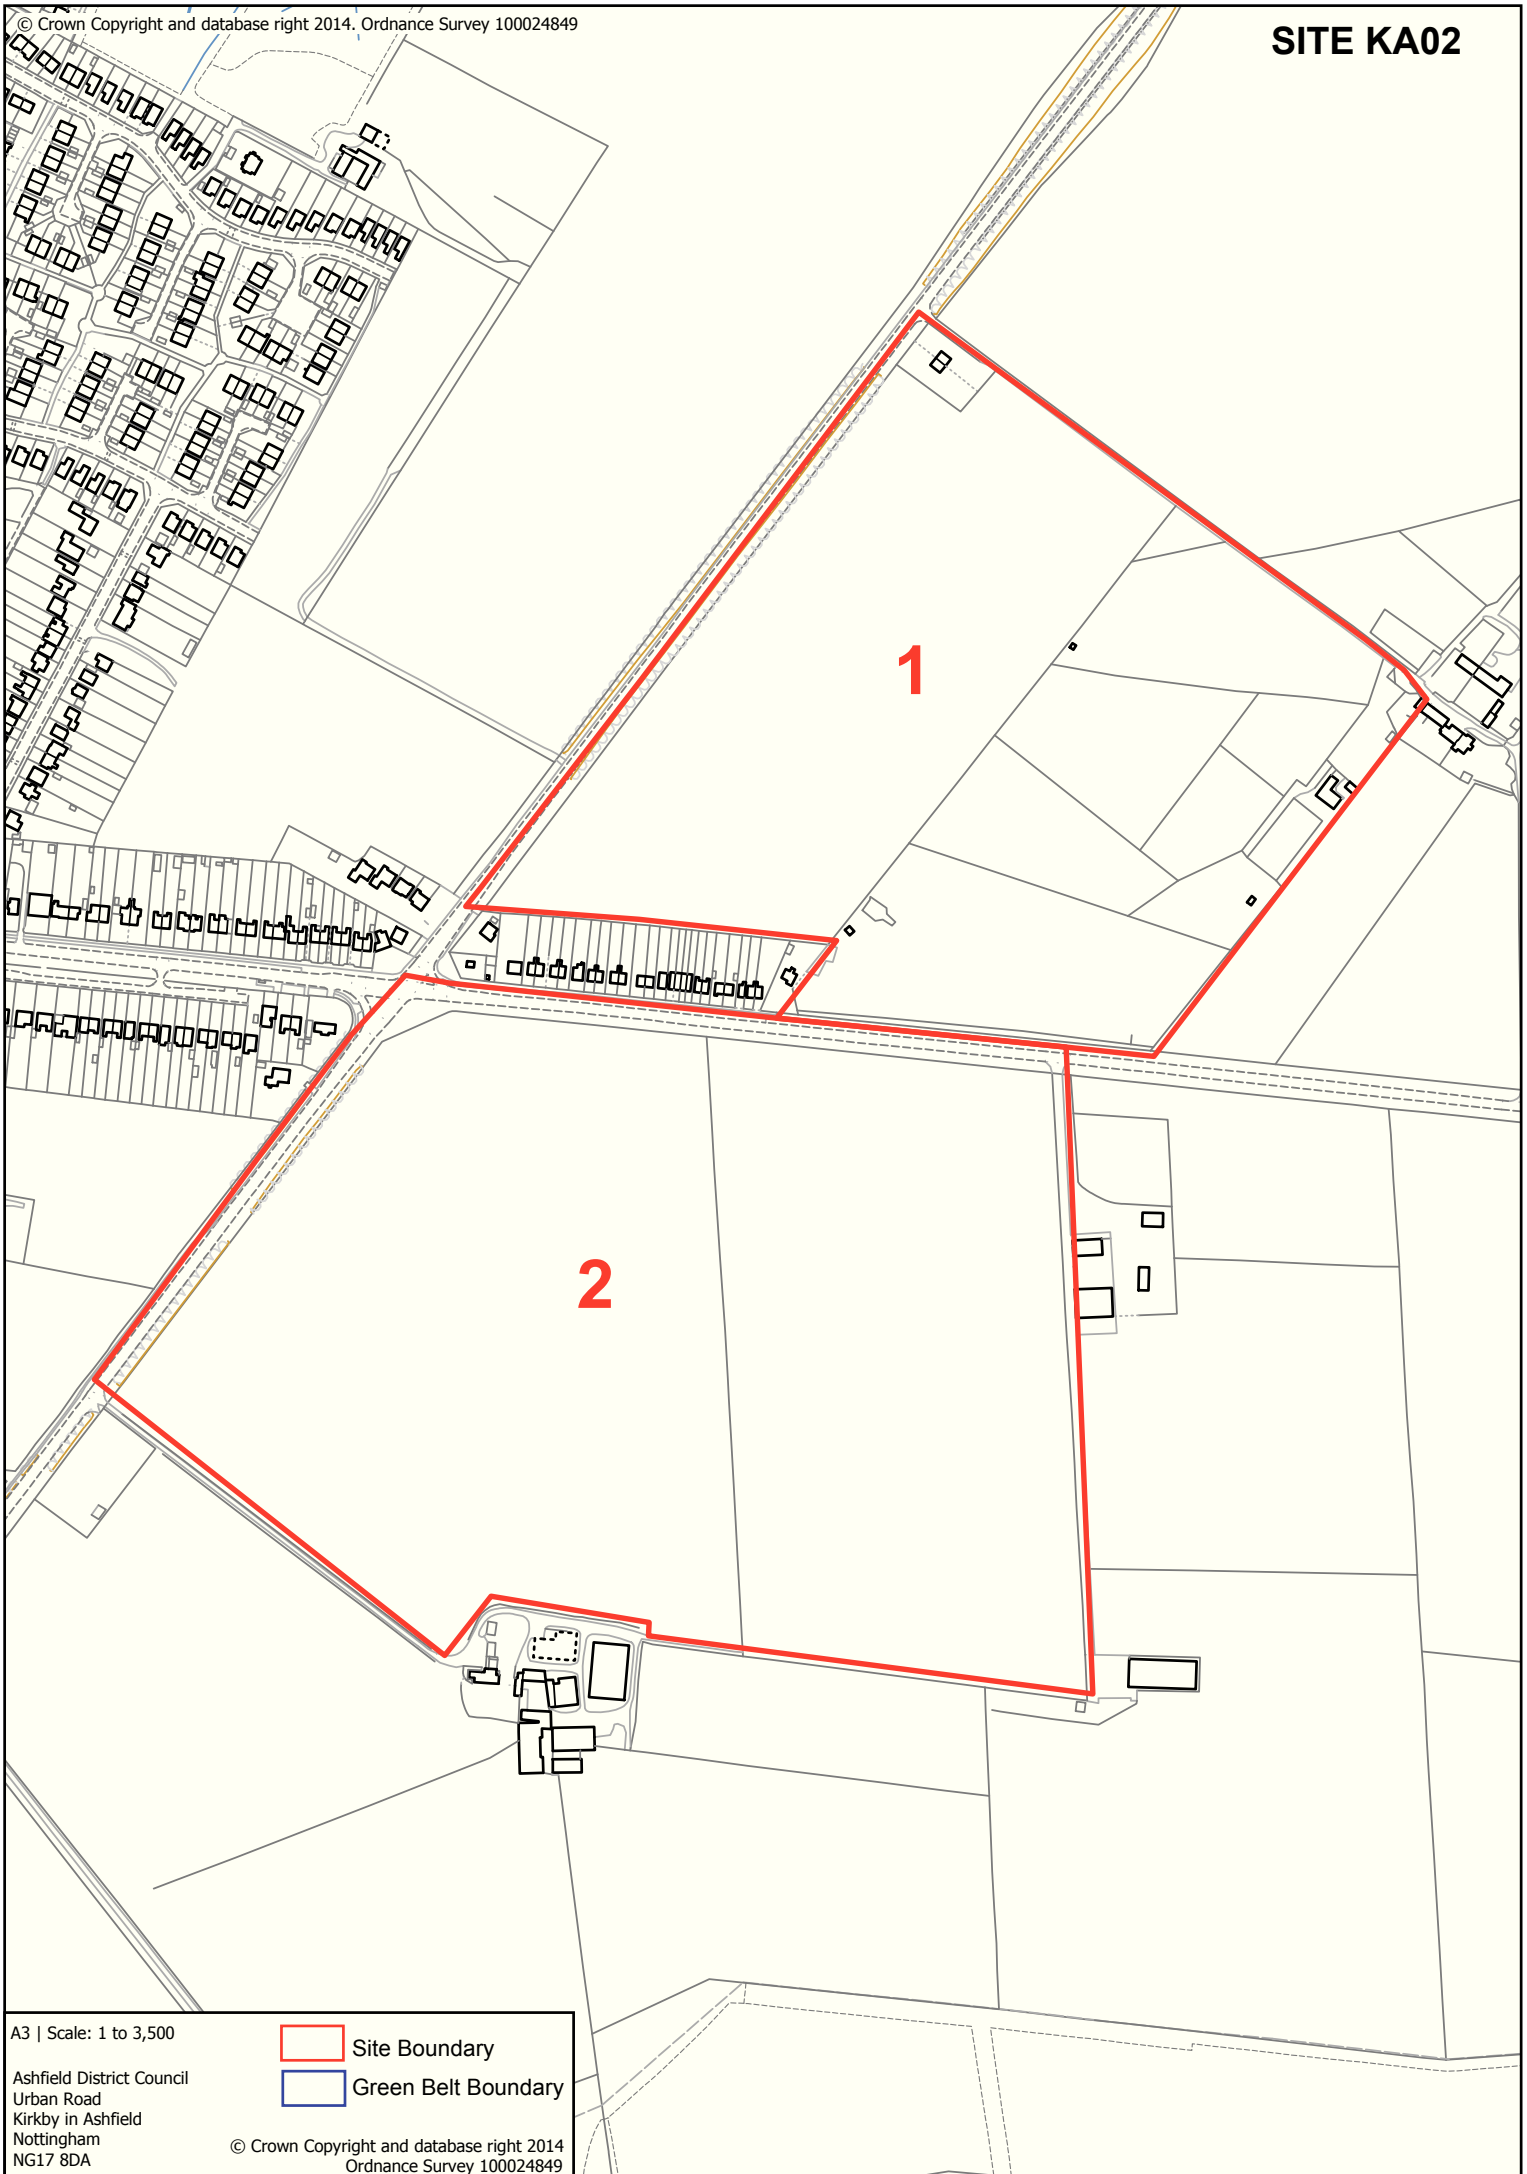

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • The majority of the site does not adjoin a settlement. • Small proportion of the site boundary 'wraps' around some linear development north of Blidworth Road. • Development of this area would not 'round off' existing settlement. • The area is moderately well contained by hedgerows (shown on the 1835 Sanderson Map) in the north, east and south. • The A611 forms the western boundary (existing Green Belt Boundary, which separates the site from the existing settlement). • The area is not visually connected to the main existing settlement, although the short linear development can be viewed. • The land is relatively flat.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> • The existing gap between Kirkby-in-Ashfield and Ravenshead to the east is approximately 3 kilometres. Development of this site/area would result in a reduction of approximately 500 metres or 1/6 (from the main settlement). Development would therefore result in a marginal reduction in the gap.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • Limited inappropriate development – 1 pair of isolated semi-detached dwellings in the far north western corner (Forest Cottages). • The area comprises 5 fields and is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	12	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA03 / Site 4 – Land east of Kirkby (West of Derby Road, A611)**

Date: 24/9/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • One boundary adjoins the existing settlement of Kirkby to the west. • Development of this site alone would not 'round off' existing settlement. • The site is well contained by the A611 to the east, Balls Lane to the south and a hedgerow (shown on the 1835 Sanderson Map) to the north. • The site is not visually connected to the existing settlement. • The eastern part of the site is relatively flat. The western part of the site slopes down to the existing urban area in the west. • Development would not extend beyond the existing urban area and would therefore not reduce the size of the gap between settlements.
Prevent neighbouring settlements from merging into one another	1	
Assist in safeguarding countryside from encroachment	3	<ul style="list-style-type: none"> • Some inappropriate development – large residential property and curtilage (occupies approximately 1/5th of the site). • The site comprises a small agricultural field, residential property and grassland. • The site is partly urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	9	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2**KA03 / Site 5 – Land east of Kirkby (West of Derby Road, A611)**

Date: 24/9/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Approximately 1/2 of the area boundaries adjoin the existing settlement. • Development of this site alone would not 'round off' existing settlement. • The site is well contained by the A611 to the east and Balls Lane to the north. • The site is not visually connected to the existing settlement in the main due to topography. However, dwellings can be viewed along Derby Road from the very southern part of the site. • The majority of the site is flat however the northern and western boundaries fall steeply away from the site down towards the existing urban area and Balls Lane, which gives a degree of separation from the existing settlement.
Prevent neighbouring settlements from merging into one another	1	<ul style="list-style-type: none"> • Development would not extend beyond the existing urban area and would therefore not reduce the size of the gap between settlements.
Assist in safeguarding countryside from encroachment	2	<ul style="list-style-type: none"> • Some inappropriate development – 1 large bungalow and domestic curtilage occupies approximately 1/5 of the site. • In addition to the above the site comprises several derelict outbuildings associated with a former poultry farm, a section of sparsely vegetated land with evidence of hardstanding beneath. An open grassed area and mature tree belts. • The site is predominantly urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	6	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 1

KA04 – Land South of Kirkby Cross Conservation Area

Date: 1/10/14

Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> Approximately 2/3 of the area boundary adjoins the existing settlement of Kirkby to the north and west. Development of this area would 'round off' existing settlement to some extent. The area is well contained by tree belts and a railway line. Parts of the area are visually connected to the existing settlement. The land is undulating with a watercourse valley and historical mounds.
Prevent neighbouring settlements from merging into one another	3	<ul style="list-style-type: none"> The majority of the area does not extend beyond the existing urban area at Laburnum Avenue and would therefore not reduce the size of the gap between settlements. The existing gap between Kirkby and Annesley to the south is approximately 1 kilometres. The settlement of Annesley is prominent when viewed from this area due to the topography and close proximity therefore the perceived reduction in gap is higher than the measured gap.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> Limited inappropriate development to the north east of the area – storm water storage tank, kiosk and associated access road. The area comprises fields, scrub and belts of mature trees. The site is predominantly open countryside in character however, a small parcel of land Cedar Avenue that is more urban fringe in character.
Preserve the setting and special character of historic settlements	5	<ul style="list-style-type: none"> This area contains designated heritage assets. These are the scheduled monument of Castle Hill fortified manor and the Fishponds 220m east of St. Wilfred's Church. This area is also within the setting of the Grade II listed Old Rectory and the Grade II listed Church of St Wilfred, which lie within Kirkby Cross Conservation Area. Development of this area is likely to be substantially harmful to the setting of all these designated heritage assets.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	14	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2

KA04 / Site 1 - Land South of Kirkby Cross Conservation Area

Date: 1/10/14 Surveyed by JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> Two boundaries (approximately 1/2 of site) adjoin existing settlement of Kirkby to the north and west. Development of this site would not 'round off' existing settlement. The site is partially well contained by strong physical features. Boundaries are formed by railway line and tarmac track. The site to some extent is visually connected to the existing settlement. However some parts are screened by mature trees. The land is sloping down for the urban edge to the railway line.
Prevent neighbouring settlements from merging into one another	1	<ul style="list-style-type: none"> The existing gap between Kirkby and Annesley Woodhouse to the south is approximately 1 kilometre. Development would not extend beyond the existing urban area and would therefore not reduce the size of the gap between settlements. Site sits low in the surrounding landscape.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> Limited inappropriate development – storm water storage tank, kiosk and associated access road. The site comprises scrub, mature trees and storm water storage tank, and is partially urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	8	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA04 / Site 2 - Land South of Kirkby Cross Conservation Area

Date: 1/10/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Approximately ½ of the sites boundaries adjoin the existing settlement of Kirkby to the north. • Development of this site would not 'round off' existing settlement. • The site is partially contained by strong physical features. Boundaries are formed by an old railway embankment, tree belt and field boundary with trees in south. • The site is visually connected to the existing settlement. • The land is sloping/ steeply sloping away from the urban area in the north.
Prevent neighbouring settlements from merging into one another	3	<ul style="list-style-type: none"> • The existing gap between Kirkby and Annesley Woodhouse to the south is approximately 1 kilometre. • Development would result in a moderate reduction in the gap. • The settlement of Annesley Woodhouse is prominent when viewed from this area due to the topography and close proximity therefore there is a perceived reduction in gap, higher than the measured gap.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises fields, pylons and scrub land to small area in the south, and is open countryside in character.
Preserve the setting and special character of historic settlements	2	<ul style="list-style-type: none"> • The site is in close proximity to Kirkby Cross Conservation Area and the Church of St. Wilfred (Grade II Listed Building). • Development of the site is likely to have a limited adverse impact on the setting and special character of Kirkby Cross Conservation Area.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	12	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA04 / Site 3 - Land South of Kirkby Cross Conservation Area - Site 3

Date: 1/10/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Small part of the eastern boundary adjoins the existing settlement of Kirkby to the north. • The site forms a long limb into open countryside. • Development of this site would not 'round off' existing settlement. • The site is well contained by strong physical features. Boundaries are formed by a mature tree belt and water course to the north and west (shown on the 1835 Sanderson Map) and a hedgerow to the east. • The site is visually connected to the existing settlement. • The site is undulating, sloping away from the urban edge.
Prevent neighbouring settlements from merging into one another	3	<ul style="list-style-type: none"> • The existing gap between Kirkby and Annesley Woodhouse to the south is approximately 1 kilometre. • The site does not extend beyond the existing urban area at Laburnum Avenue and would therefore not reduce the size of the gap between settlements, however, the settlement of Annesley Woodhouse is prominent when viewed from this area due to the topography and close proximity therefore the perceived reduction in gap is higher than the measured gap. • The site sits low in its surroundings and therefore would be highly visible when viewed from Annesley Woodhouse.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises an agricultural field which is open countryside in character.
Preserve the setting and special character of historic settlements	5	<ul style="list-style-type: none"> • The site is directly adjacent to Kirkby Cross Conservation Area. • Church of St. Wilfred (Grade II Listed Building) lies in close proximity. • Adjacent to a Scheduled Monument – Fish Ponds 220m East of St. Wilfred's Church. • Development of the site is very likely to have a significant adverse impact on the setting and special character of Kirkby Cross Conservation Area.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	17	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2**KA04 / Site 4 - Land South of Kirkby Cross Conservation Area**

Assessment 2**KA06 / Site 1 – Land between Kirkby-in-Ashfield and Annesley**

Date: 28/10/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Triangular site where 1 boundary adjoins the existing settlement of Kirkby to the north. The existing green belt boundary is formed by a railway line and embankment and therefore the site is largely disconnected from the built up area. • Development of this area would not 'round off' an existing settlement. • The site is well contained by physical features. Boundaries are formed by a track and hedgerows (shown on the 1835 Sanderson's Map). • The site is not visually connected to the existing settlement of Kirkby. • Approximately half of the site is flat (agricultural field), the remainder is a raised railway line and embankment.
Prevent neighbouring settlements from merging into one another	3	<ul style="list-style-type: none"> • Whilst the development of this site would not extend beyond the existing urban area of Kirkby (including the electricity sub-station to the south/east which is in Green Belt), the gap between Kirkby and Annesley is only 700 metres. • Development of the site would reduce the gap by approximately 25% resulting in a moderate reduction in the overall size of the gap.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • No inappropriate development. • The railway line is urban fringe in character. The remainder of the site (agricultural field and embankment) forms part of the wider open countryside.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	13	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2

KA06 / Site 2 – Land between Kirkby-in-Ashfield and Annesley

Date: 28/10/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> 2 boundaries (approximately 1/3) adjoin the existing settlement of Kirkby to the north and east. The existing green belt boundary is formed by a railway line and embankment and therefore the site is largely disconnected from the built up area, however the eastern boundary adjoins Kingsway. Development of this area would not 'round off' existing settlement. The site is partially well contained by strong physical features. Boundaries are formed by access road to Portland Park and a mature hedgerow and trees (not shown on the 1835 Sanderson's map). The site is not visually connected to the existing settlement. The land is flat.
Prevent neighbouring settlements from merging into one another	4	<ul style="list-style-type: none"> The existing gap between Kirkby-in-Ashfield and Annesley to the south is approximately 250 metres. Development of this area would result in a significant reduction (approximately 25%) in the size of the gap between Kirkby-in-Ashfield and Annesley.
Assist in safeguarding countryside from encroachment	1	<ul style="list-style-type: none"> The site includes a large amount of inappropriate development – large electricity sub-station. The site is urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	10	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA06 / Site 3 – Land between Kirkby-in-Ashfield and Annesley**

Date: 28/10/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • 1 boundary adjoins the existing settlement of Kirkby to the east and 1 boundary adjoins the existing settlement of Annesley to the south. • Development of this area would not 'round off' existing settlement. • The site is moderately well contained by physical features – northern boundary formed by mature trees and hedgerow, western boundary formed by a hedgerow (shown on the Sanderson's Map). • The site is visually connected to Annesley in the south and Kirkby in the east. • The land is gently undulating. • Development of this area would completely merge the existing settlements of Kirkby-in-Ashfield and Annesley.
Prevent neighbouring settlements from merging into one another	5	
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises an arable field. • The site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	13	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2**KA06 / Site 4 – Land between Kirkby-in-Ashfield and Annesley**

Date: 28/10/14 Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)
Check the unrestricted sprawl of settlements	5	<ul style="list-style-type: none"> • The site does not adjoin the existing settlement. • Development of this area would not 'round off' existing settlement. • The site is well contained by physical features. Surveyed by: JC & LF

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> Approximately 1/3 of the area boundaries adjoin Annesley to the south. (one boundary) Development of this area would not 'round off' existing settlement. The area is well contained by Mill Lane in the north and a belt of trees to the west. A small section of the southern boundary is less well contained by field boundaries. The area is only partially visually connected to the existing settlement as the land slopes fairly steeply away from Annesley down towards Mill Lane in the north.
Prevent neighbouring settlements from merging into one another	4	<ul style="list-style-type: none"> The existing gap between Annesley and Kirkby-in-Ashfield to the north is approximately 1 kilometre. Development of this area would result in a reduction of approximately 200 metres, or 1/5. Development would therefore result in a moderate reduction in the physical gap, however any development of this site would be highly prominent from Kirkby due to the topography. Any development would also lessen the physical gap between the Bentinck workshops and Annesley, however this would be lessened visually by a densely wooded area.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> Limited amount of inappropriate development – one pair of semi-detached dwellings and a re-used church. In addition to the above the area comprises fields, stabling and paddocks. The area is predominantly open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Prospect Farmhouse (Grade II Listed Building) lies in close proximity to the south of the area. Development of the area will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	13	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA11 / Site 1 – Land between Annesley and Sherwood Business Park

Date: 24/11/14 Survey By: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	3	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> Northern boundary adjoins existing settlement of Annesley and southern boundary adjoins Sherwood Business Park. This amounts to approximately 2/3 of the boundary adjoining urban areas, although only 1/3 adjoins a settlement. Development of this site would not 'round off' existing settlement. The site is well contained by the Business Park in the south and the A611 to the east. The site is not visually connected to the existing settlement. The site is fairly flat.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> The existing gap between Annesley and Sherwood Business Park to the south is approximately 200 metres. Development of this site would completely merge the existing built up areas. The existing gap is very narrow, although this is currently mitigated by the plantation.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development. The site comprises a plantation. The site is open countryside.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	14	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2**KA11 / Site 2 – Land between Annesley and Sherwood Business Park**

Date: 24/11/14 Survey By: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	3	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> • Northern boundary adjoins existing settlement of Annesley and southern boundary adjoins Sherwood business Park. This amounts to approximately 2/3 of the boundary adjoining urban areas, although only 1/3 adjoins a settlement. • Development of this site would not 'round off' existing settlement. • The site is well contained by the Business Park in the south, the plantation to the east and footpath 30 the west. • The site is not visually connected to the existing settlement. • The site slopes downwards from north to south.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> • The existing gap between Annesley and Sherwood Business Park to the south is approximately 200 metres. • Development of this site would completely merge the existing built up areas. • The existing gap is very narrow, although this is currently mitigated by the wooded areas and tree belts.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises a wooded areas, trees belts and footpaths. • The site is open countryside.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.

Assessment 2**KA11 / Site 3 – Land between Annesley and Sherwood Business Park**

Date: 24/11/14 Survey By: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	2	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • 1 boundary (approximately ½ the site) adjoins the existing settlement of Annesley to the north. • Development of this site would not 'round off' existing settlement. • The site is well contained by a belt of trees to the south and east of the site, and a public footpath (FP30) to the west. • The site is visually connected to the existing settlement. • The site slopes gently downwards from north to south.
Prevent neighbouring settlements from merging into one another	4	<ul style="list-style-type: none"> • The existing gap between Annesley and Sherwood Business Park to the south is approximately 150 metres. • Development of this site would result in a moderate reduction in this gap of approximately 20m. • The existing gap is very narrow, although this is currently mitigated by the plantation.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises a scrub land and a part of a paddock. • The site is open countryside.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	12	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA11/ Site 4 – Land between Annesley and Sherwood Business Park**

Date: 24/11/14 Survey By: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	3	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> • Northern boundary adjoins existing settlement of Annesley and southern boundary adjoins Sherwood business Park. This amounts to approximately 2/3 of the boundary adjoining urban areas, although only 1/3 adjoins a settlement. • Development of this site would not 'round off' existing settlement. • The site is well contained by the Business Park in the south, footpath 30 to the east and a mature hedgerow to the west. • Parts of the site are visually connected to the existing settlement. • The site slopes gently downward from the north to the south.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> • The existing gap between Annesley and Sherwood Business Park to the south varies between approximately 60 metres to 150 metres. • Development of this site would completely merge the existing built up areas. • The existing gap is very narrow, although this is partially mitigated by tree belts.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises a grazed scrub land, small holding, wooded areas and tree belts, residential gardens (no paraphernalia evident). • The site is partly open countryside and partly urban fringe in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	13	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA11 / Site 5 – Land between Annesley and Sherwood Business Park

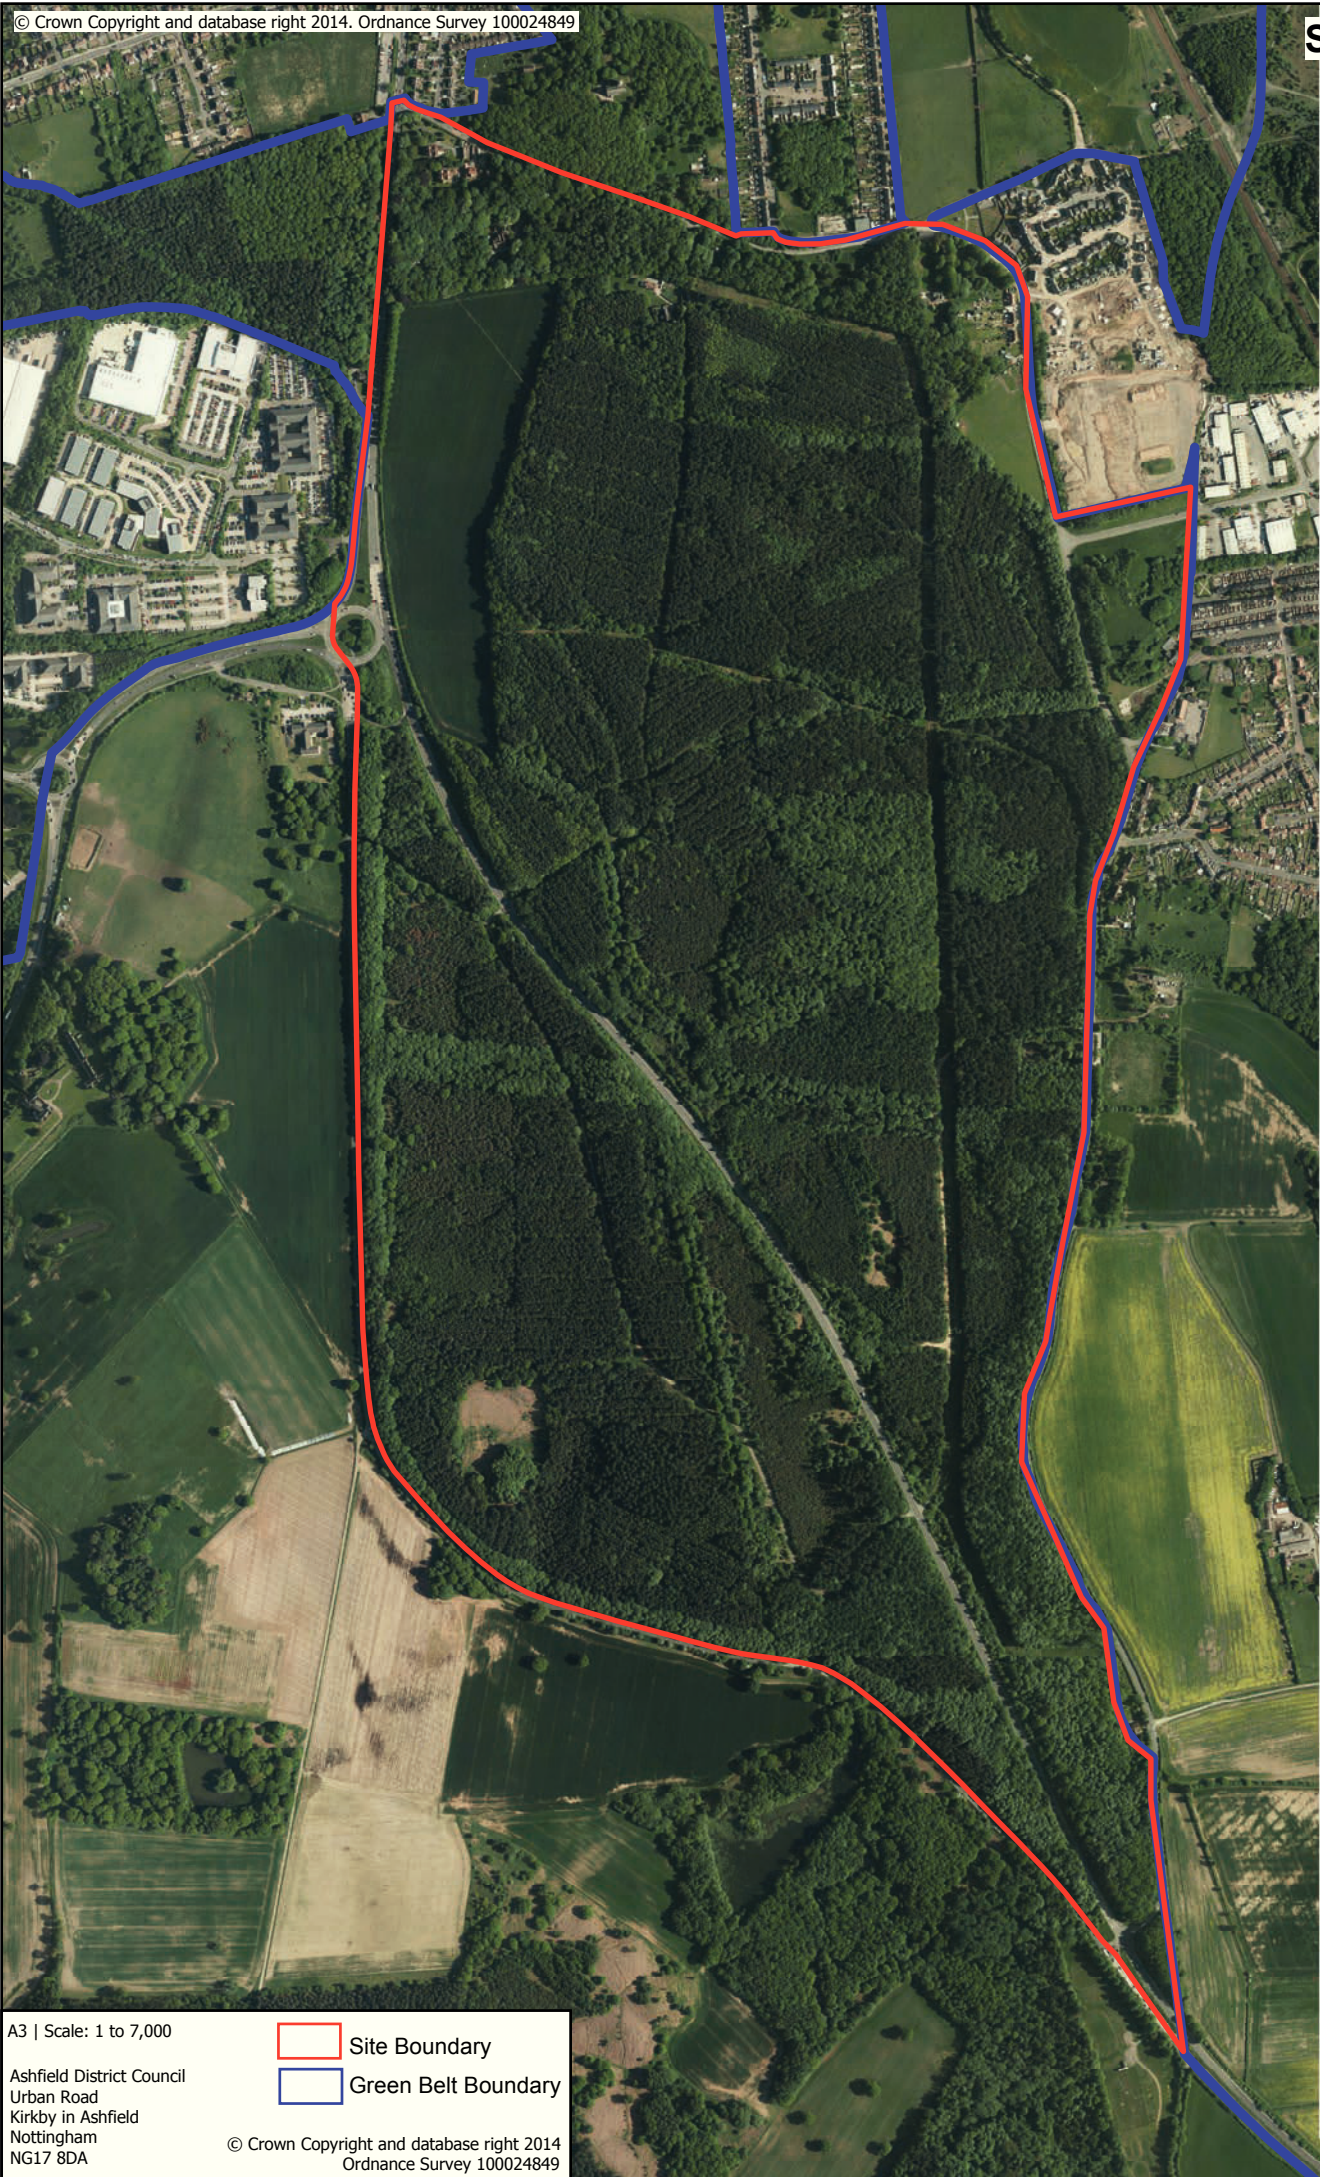

Date: 24/11/14 Survey By: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> The site does not adjoin existing settlement of Annesley. One boundary adjoins Sherwood Business Park to the east. Development of this site would not 'round off' existing settlement and would form a long limb to the existing settlement. The site is partially contained by the Business Park in the east, field boundaries the south and west, and Salmon Lane to the north. The site is not visually connected to the existing settlement. The site slopes downwards from the north/east to the south/west.
Prevent neighbouring settlements from merging into one another	3	<ul style="list-style-type: none"> The existing gap between Annesley / Sherwood Business Park and Selston to the west is approximately 1.5 kilometres. Development of this site would result in a moderate reduction in the size of the gap (approximately 200 metres). The M1 and Selston can be viewed from the site therefore the perceived reduction in gap is higher than the measured gap.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development. The site comprises an arable field and a mature tree belt in the east. The site is open countryside.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	14	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 1**KA12 – Annesley Plantation**

Date: 24/11/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • A small part of the area abuts the settlement of Annesley and New Annesley to the north. • Development of this area would not 'round off' existing settlement. • The area is well contained by the A611 to the west and south, Hucknall Road to the east and Annesley Cutting to the north. • The area is not visually connected to the existing settlement and forms a long limb into open countryside • The land is undulating.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> • Development of this area would merge the existing settlements of Annesley, New Annesley, Newstead and Sherwood Business Park.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • Limited amount of inappropriate development when viewed as a proportion of whole site – 6 cottages associated with the former Annesley Colliery and 9 other residences are located in the north of the area. • The area comprises Annesley Forestry plantation. • The area is predominantly countryside in character.
Preserve the setting and special character of historic settlements	5	<ul style="list-style-type: none"> • The area adjoins Annesley Conservation Area to the north, contains the Scheduled Monument of Annesley motte and bailey and forms part of the Grade II* registered park and garden. • Development of this area is likely to be substantially harmful to the setting and special character of New Annesley Conservation Area.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	19	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA12 / Site 1 – Annesley Plantation**

Date: 24/11/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • A small part of the site abuts the settlement of Annesley and New Annesley to the north. • Development of this site would not 'round off' the existing settlement. • The site is well contained by Annesley Forest plantation to the south, A611 to the west, Newstead Road to the east and Annesley Cutting to the north. • The site is not visually connected to the existing settlement. • The land is undulating.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> • Development of this site would merge the existing settlements of Annesley and New Annesley.
Assist in safeguarding countryside from encroachment	3	<ul style="list-style-type: none"> • Some inappropriate development – gas utility compound, 6 cottages associated with the former Annesley Colliery and 9 other residences. • In addition to the above the site contains wooded areas and a small field for horse grazing. • The site is part countryside in character and part urban fringe in character.
Preserve the setting and special character of historic settlements	5	<ul style="list-style-type: none"> • Development of the site is likely to have a significant adverse impact on New Annesley Conservation Area • The site lies in close proximity to Annesley Hall Registered Park and Castle Hill/Diadem Hill Scheduled Ancient Monument.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	17	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2**KA12 / Site 2 – Annesley Plantation**

Date: 24/11/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • The site does not adjoin the existing settlement of Annesley, but 1 boundary adjoins Sherwood business Park to the west. • Development of this area would not 'round off' existing settlement. • The site is well contained by woodland and Annesley Forest plantation to the north, east and south, and the A611 to the west. • The site is not visually connected to the existing settlement. • The land is undulating.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> • The gap between Sherwood Business Park to the west and Newstead to the east is approximately 1 kilometre. • Development of the site would result in moderate reduction in the gap by approximately 200 metres, although this is currently mitigated by the plantation.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> • No inappropriate development. • The site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will not adversely impact on the setting and special character of New Annesley Conservation Area. Plantation lies between the site and the conservation area. • For future consideration – the site lies in close proximity to Annesley Hall Registered Park and Castle Hill/Diadem Hill Scheduled Monument.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
TOTAL SCORE	16	<p>The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.</p>

Assessment 2

KA12 / Site 3 – Annesley Plantation

Date: 24/11/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> The site does not adjoin a settlement. Development of this area would not 'round off' existing settlement. The area is well contained by the A611 to the west and south, Hucknall Road to the east and woodland to the north. The area is not visually connected to the existing settlement and forms a long limb into open countryside The land is undulating.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> The gap between Sherwood Business Park to the west and Newstead to the east is approximately 1 kilometre. Development of this area would result in a virtually complete merging of the existing settlements of Annesley, New Annesley, Newstead and Sherwood Business Park.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development. The area comprises Annesley Forest plantation. The area is countryside in character
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site will not adversely impact on the setting and special character of New Annesley Conservation Area. Plantation forms the site and lies between the site and the conservation area. For future consideration – the site lies in close proximity to Annesley Hall Registered Park and Castle Hill/Diadem Hill Scheduled Monument.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	16	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA12 / Site 4 – Annesley Plantation

Date: 24/11/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> • 1 boundary (approximately 1/3 of site) adjoins the existing settlement of Newstead Village (Gedling Borough) to the east. • Development of this area would not 'round off' an existing settlement. • The site is well contained by Hucknall Road and Annesley Forest plantation to the west, and New Annesley Conservation Area to the north, including a steep embankment topped with trees. • The eastern part of the site is visually connected to the existing settlement of Newstead Village, however there is a significant difference in levels (site elevated above Newstead Village). • The land is undulating, very steep in parts. Southern part of the site is flat.
Prevent neighbouring settlements from merging into one another	1	<ul style="list-style-type: none"> • The gap between Sherwood Business Park to the west and the existing settlement of Newstead Village to the east is approximately 1 kilometre. However in reality the development of this site would not extend beyond existing urban development (Annesley Colliery site – currently under construction) to the north.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • No inappropriate development. • The site comprises a park with play equipment, a youth shelter and skate park. • The site is urban fringe in character.
Preserve the setting and special character of historic settlements	3	<ul style="list-style-type: none"> • Development of the site is likely to have a moderate adverse impact on the special setting and special character of New Annesley Conservation Area. The southern part of the conservation area now contains modern development (residential housing estate) which has eroded the significance of this part of the conservation area to a large extent. • For future consideration - the site lies in close proximity to Annesley Hall Registered Park and Castle Hill/Diadem Hill Scheduled Ancient Monument.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	12	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 1**KA13 – Land between Annesley and New Annesley Conservation Area**

Date: 1/12/14 Surveyed by: LF & JC

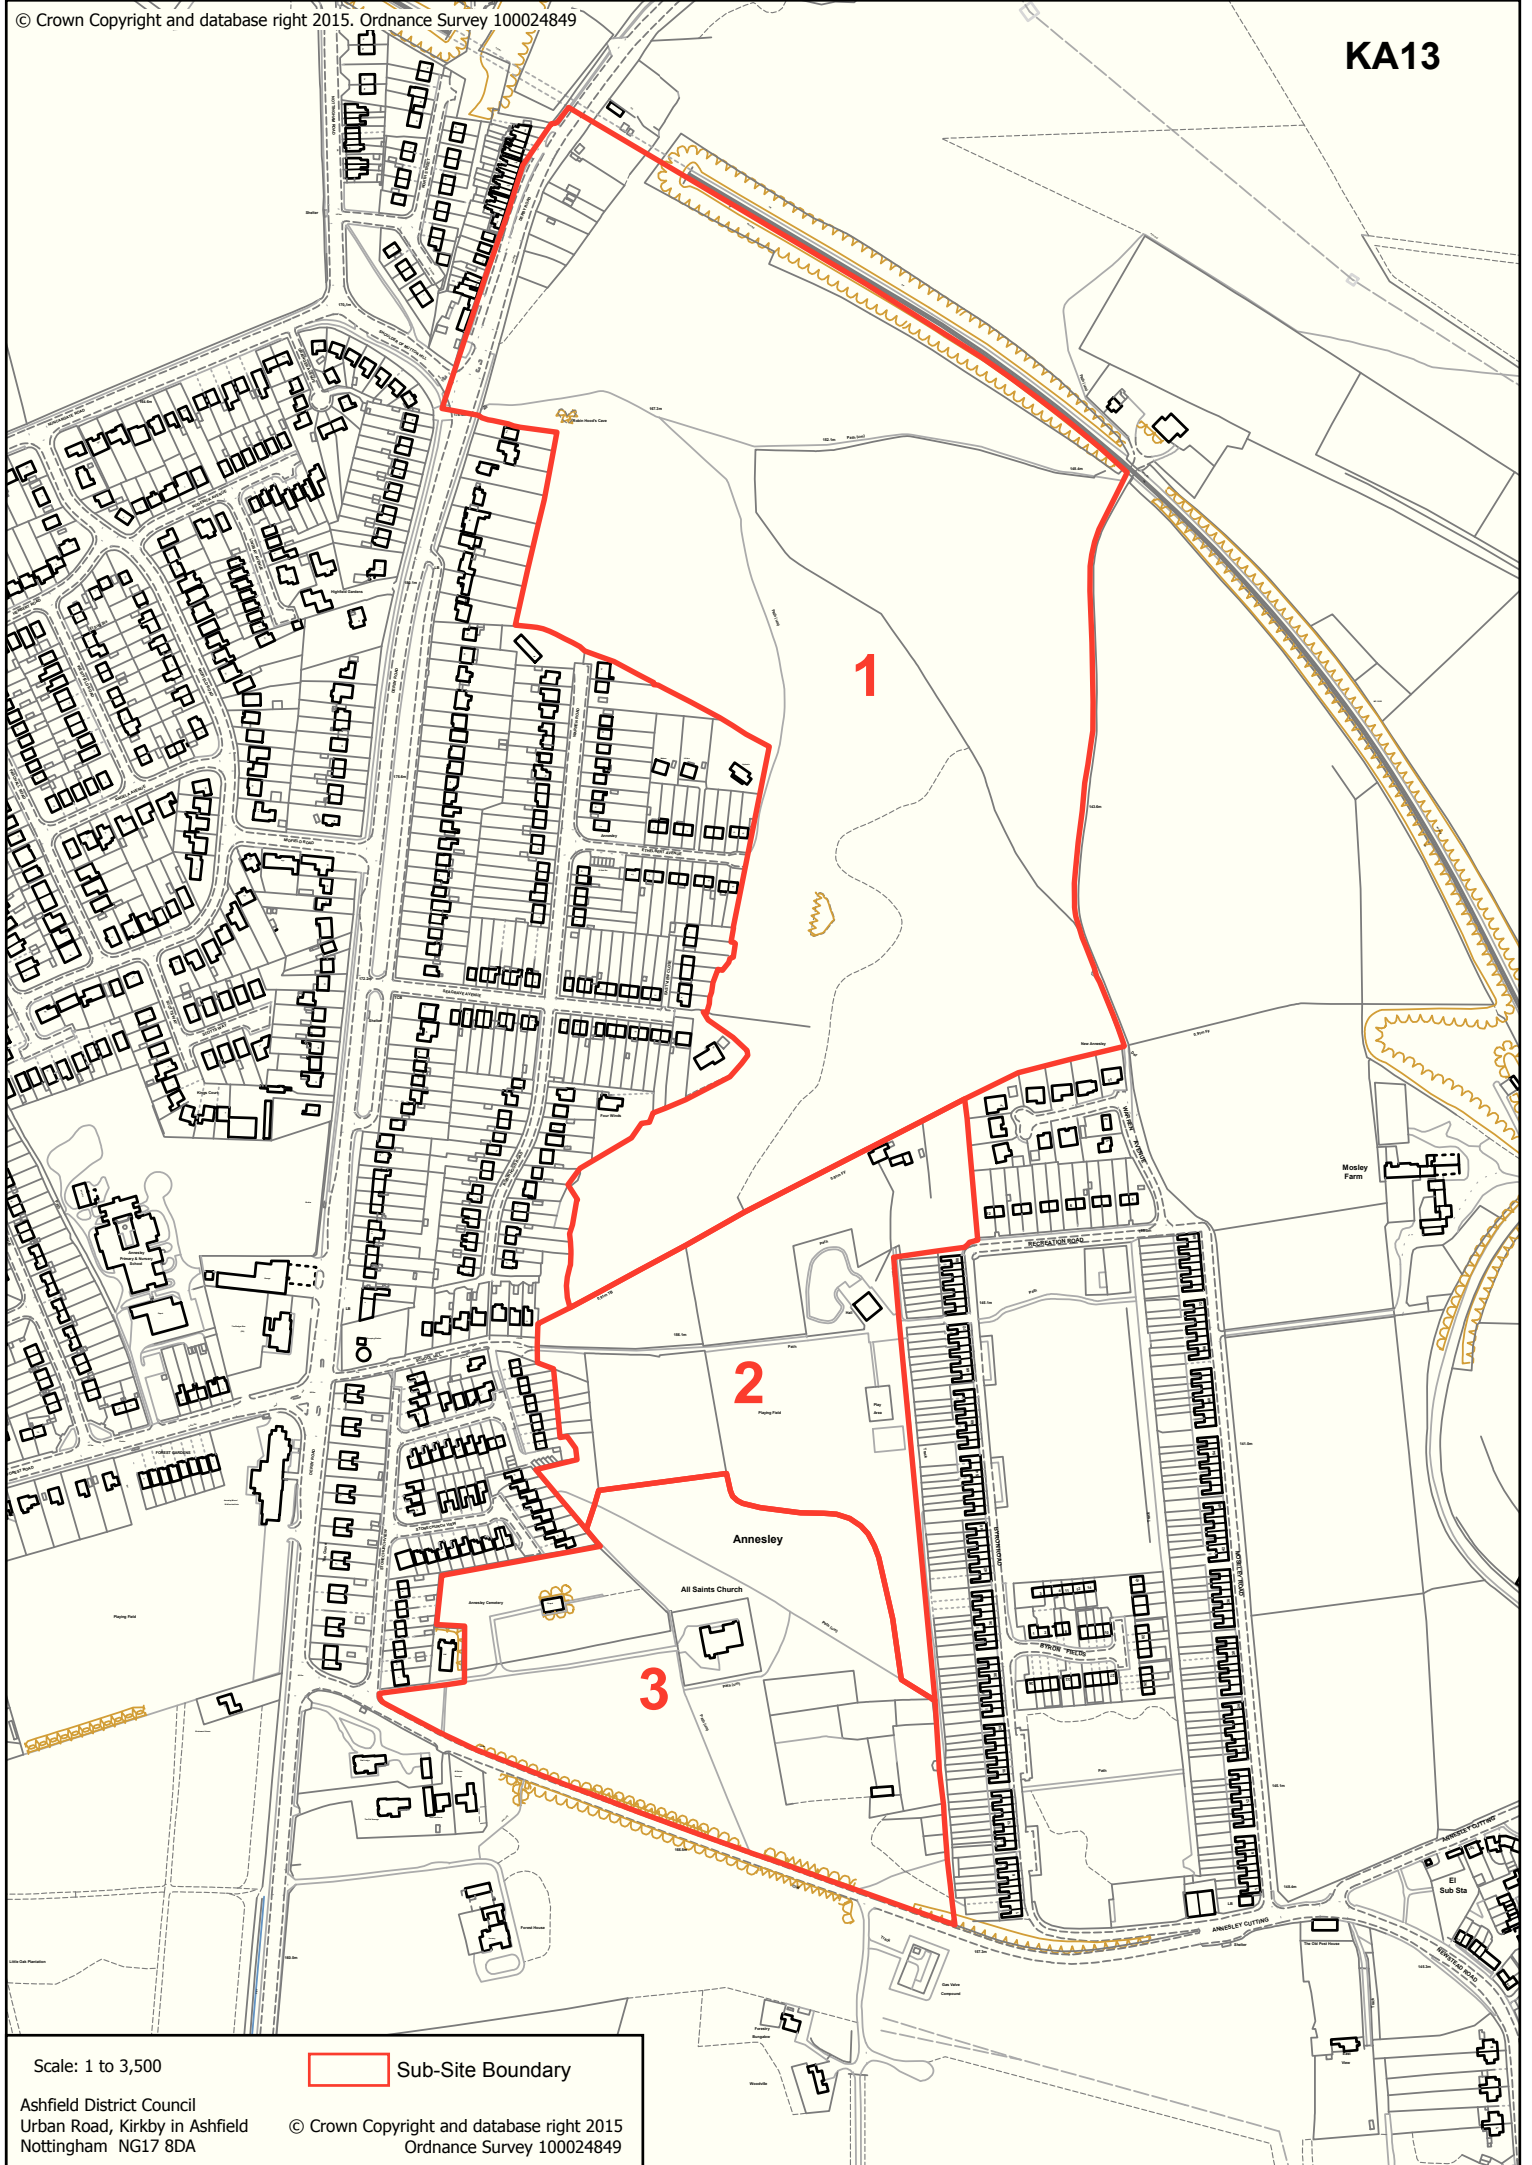

Purpose / Impact	Score (1 – 5)	Justification/Notes Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)
Check the unrestricted sprawl of settlements	2	<ul style="list-style-type: none"> • Two boundaries adjoin the existing settlements of Annesley and New Annesley (approximately ½ of the area). • Development of this area would not 'round off' existing settlement. • The area is well contained by existing settlements to the west and east, a railway line to the north and Annesley Cutting to the south. • The northern part of the area is not visually connected to the existing settlement of Annesley due to a steep escarpment. • The land is steeply sloping in the west with Annesley situated higher than New Annesley.
Prevent neighbouring settlements from merging into one another	5	<ul style="list-style-type: none"> • Development of this area would completely merge the existing settlements of Annesley and New Annesley. • Development of the area would be highly prominent due to the topography.
Assist in safeguarding countryside from encroachment	3	<ul style="list-style-type: none"> • Some inappropriate development – Church, community centre and storage yard. • In addition to the above the area comprises a playing field and play area, a cemetery, paddocks, fields, wooded areas, heath land, a farm. • The area is predominantly open countryside in character, with some urban fringe characteristics.
Preserve the setting and special character of historic settlements	5	<ul style="list-style-type: none"> • This area is within the setting of Annesley Conservation Area and the Church of All Saints (Grade II Listed Building). The terraces of the conservation area developed as a result of the sinking of the pit and were pit houses. • Developing this area could be considered harmful to the setting of the conservation area by encroaching on the planned development and loss of understanding of the relationship between the colliery site and the housing.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	15	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Date: 2/12/14 Surveyed by: LF & JC

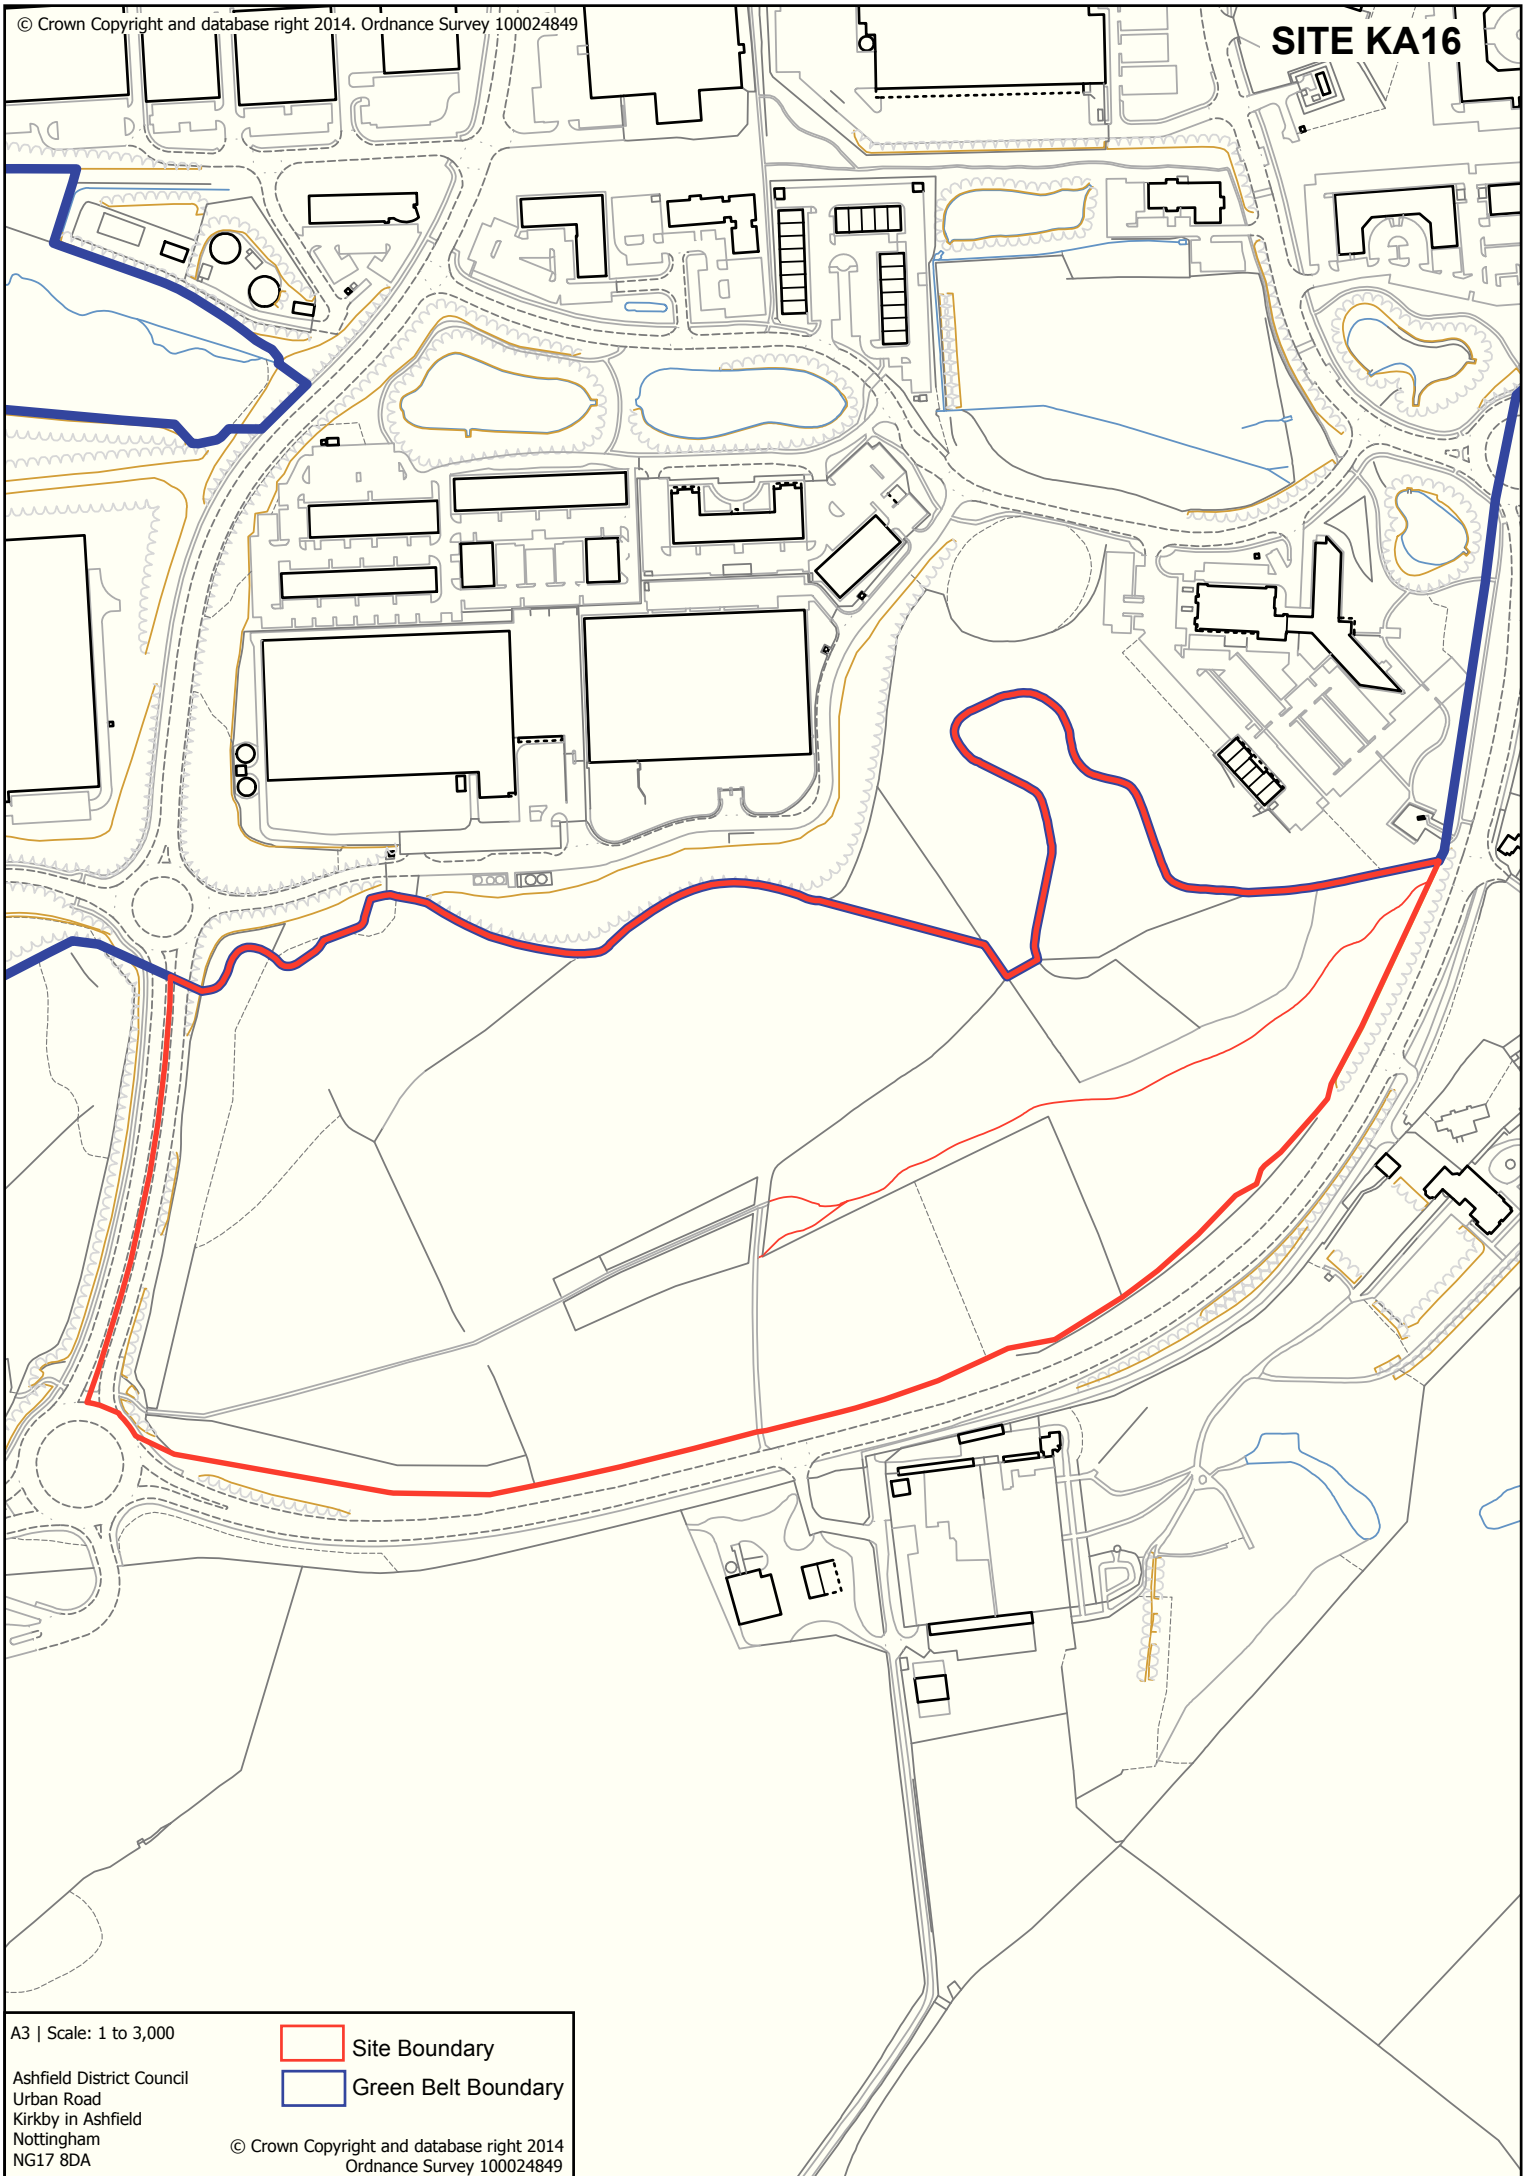

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> The site does not adjoin an existing settlement, but does adjoin Sherwood Business Park to the east. Development of this site would not 'round off' existing settlement. The site is moderately well contained by hedgerows (shown on the 1835 Sanderson's map). The site is not visually connected to an existing settlement. (<i>The business park is screened by trees</i>)
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> Development of this site would extend marginally beyond the business park and could potentially lessen the existing gap between the employment area and Selston/Underwood to the west by 100m.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development. The site comprises fields. The site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site would have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	13	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA17 / Site 4 – Land south west of Sherwood Business Park

Date: 2/12/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> The site does not adjoin an existing settlement. Development of this site would not 'round off' existing settlement. The site is well contained by the M1 motorway to the west, the A608 to the south and a hedgerow to the north east (shown on the 1835 Sanderson's map). The site is not visually connected to an existing settlement. (<i>The business park is screened by trees</i>)
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> Development of this site would extend beyond the business park and could potentially lessen the existing gap between the employment area and Selston/Underwood to the west by 500m.
Assist in safeguarding countryside from encroachment	5	<ul style="list-style-type: none"> No inappropriate development. The site comprises a field. The site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> Development of the site would have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	13	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 1

KA18 – Land off Laburnum Avenue, Kirkby-In-Ashfield

Date: 2/12/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> Only a small proportion of the areas boundaries adjoin the existing settlement of Kirkby - wraps around Laburnum Avenue in the north. This part of the existing settlement forms a long limb into open countryside. Development of this area would not 'round off' existing settlement. The majority of the area is well contained. Boundaries are formed by Mill Lane to the west, woodland and an old railway embankment to the east and south. The northern boundary is formed by a hedgerow (not shown on 1835 Sandersons Map). Parts of the area are visually connected to the existing settlement. The land is slopes down from Laburnum Avenue to the south of the site.
Prevent neighbouring settlements from merging into one another	3	<ul style="list-style-type: none"> The existing gap between Kirkby and Annesley to the south is approximately 1km. Development of this area would result in a moderate reduction in the existing gap between the two settlements by approximately 300m or a 1/3rd.
Assist in safeguarding countryside from encroachment	2	<ul style="list-style-type: none"> Large amount of inappropriate development – 2 residential properties, large concrete hard-standing (former coal stocking site), chicken coups, timber/log storage, stables and paraphernalia. The area comprises paddocks, a field, woodland, scrub and a disused coal stocking site. The area is part urban fringe in character and part open countryside in character.
Preserve the setting and special character of historic settlements	2	<ul style="list-style-type: none"> This area is at greater distance from the designated heritage assets at KA04 (Scheduled Monument of Castle Hill fortified manor and the Fishponds 220m east of St. Wilfred's Church. Setting of the Grade II listed Old Rectory and the Grade II listed Church of St Wilfred. Kirkby Cross Conservation Area) but development still has potential to affect their setting. Development of this area is likely to have a limited adverse impact on the setting and special character of Kirkby Cross Conservation Area.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	11	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2

KA18 / Site 1 - Land off Laburnum Avenue, Kirkby-In-Ashfield

Date: 2/12/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	4	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none"> • 2 boundaries adjoin the existing settlement. This part of the existing settlement forms a long limb into open countryside. • Development of this site would not 'round off' existing settlement. • The site is not well contained – hedgerow (not on 1835 Sandersons Map). • The site is visually connected to Laburnum Avenue to the south, but not the main part of the existing settlement to the north. • The land slopes from north to south.
Prevent neighbouring settlements from merging into one another	1	<ul style="list-style-type: none"> • Development would not extend beyond the existing urban area and would therefore not reduce the size of the gap between settlements.
Assist in safeguarding countryside from encroachment	2	<ul style="list-style-type: none"> • Some inappropriate development – equestrian paraphernalia. • The site comprises paddocks, stabling and timber/log storage. • The site is urban fringe in character.
Preserve the setting and special character of historic settlements	2	<ul style="list-style-type: none"> • This area is at greater distance from the designated heritage assets at KA04 (Scheduled Monument of Castle Hill fortified manor and the Fishponds 220m east of St. Wilfred's Church. Setting of the Grade II listed Old Rectory and the Grade II listed Church of St Wilfred. Kirkby Cross Conservation Area) but development still has potential to affect their setting. • Development of the site is likely to have a limited adverse impact on the setting and special character of a Kirkby Cross Conservation Area to the north of the site.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	9	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2**KA18 / Site 2 - Land off Laburnum Avenue, Kirkby-In-Ashfield****Date: 2/12/14** **Surveyed by: LF & JC**

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2) <ul style="list-style-type: none">• The site does not adjoin the existing settlement of Kirkby to the west and forms a long limb into open countryside.• Development of this site would not 'round off' existing settlement.• The site is not visually connected to the existing settlement.• The land is undulating.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none">• Development would only extend marginally beyond the existing urban area and would therefore there would be a limited reduction in the gap between settlements.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none">• Small amount of inappropriate development – 2 residential properties.• In addition to the above the site comprises woodland and scrub.• The majority of the site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none">• Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.
TOTAL SCORE	12	The score indicates how an area/site performs as a whole when assessed against the 5 purposes of Green Belt (as set out in Greater Nottingham and Ashfield Green Belt Assessment Framework). In general terms a higher score indicates a stronger performing parcel of land.

Assessment 2**KA18 / Site 3 - Land off Laburnum Avenue, Kirkby-In-Ashfield**

Date: 2/12/14 Surveyed by: LF & JC

Purpose / Impact	Score (1 – 5)	Justification/Notes
Check the unrestricted sprawl of settlements	5	<p>Based on Assessment Matrix and Assessment Criteria (Figures 1 and 2)</p> <ul style="list-style-type: none"> • Half of 1 boundary adjoins the existing settlement of Kirkby to the north. This part of the existing settlement forms a long limb into open countryside. • Development of this site would not 'round off' existing settlement. • The site is well contained by Mill Lane to the west, woodland and tree belt to the north and east. However, the largest boundary to the site (to the south) is not well contained – unadopted access track. • Part of the site is visually connected to Laburnum Avenue to the north. • The land slopes down from north to south.
Prevent neighbouring settlements from merging into one another	2	<ul style="list-style-type: none"> • The existing gap between Kirkby and Annesley to the south is approximately 1km. Development of this site would result in a small reduction in the existing gap between the two settlements by approximately 50m or a 1/3rd.
Assist in safeguarding countryside from encroachment	4	<ul style="list-style-type: none"> • Small amount of inappropriate development – 2 residential properties. • In addition to the above the site comprises arable field. • The majority of the site is open countryside in character.
Preserve the setting and special character of historic settlements	1	<ul style="list-style-type: none"> • Development of the site will have no adverse impact on the setting and special character of a historic settlement.
Assist in urban regeneration	N/A	<p>It is considered that all sites in the Green Belt assist in urban regeneration. This is not considered to be a matter of difference between Green Belt sites and therefore this Green Belt purpose is not scored as part of the Framework.</p>
