**INFORMATIVE**

1. The applicant/developer is strongly advised to ensure compliance with all planning conditions, if any, attached to the decision. Failure to do so could result in LEGAL

action being taken by the Ashfield District Council at an appropriate time, to ensure full compliance. If you require any guidance or clarification with regard to the terms of any planning conditions then do not hesitate to contact the Development & Building Control Section of the Authority on Mansfield (01623 450000).

2. The applicant is advised that it is an offence to destroy habitats supporting protected species such as bats and nesting birds. It is recommended that the views of a qualified ecologist are obtained prior to carrying out any works on site, specifically before any trees are felled.

3. This permission shall be read in conjunction with an Agreement made under Section 106 of the Town and Country Planning Act 1990 and dated <<...>>.

4. In order to carry out the off-site works required you will be undertaking work in the public highway which is land subject to the provisions of the Highways Act 1980 (as amended) and therefore land over which you have no control. In order to undertake the works you will need to enter into an agreement under Section 278 of the Act.

This consent will require approval under Section 19 of the Nottinghamshire County Council Act 1985 and where the new streets are to be adopted an Agreement pursuant to Section 38 of the Highways Act 1980 will be required. Please contact Nottinghamshire County Council to ensure that approvals and agreements are

secured before commencement of works.

The applicant should note that notwithstanding any planning permission that if any highway forming part of the development is to be adopted by the Highways Authority, The new roads and any highway drainage will be required to comply with the Nottinghamshire County Council's current highway design guidance and specification for roadworks.

The Advanced Payments Code in the Highways Act 1980 applies and under section 219 of the Act payment will be required from the owner of the land fronting a private street on which a new building is to be erected. The developer should contact the Highways Authority with regard to compliance with the Code, or alternatively to the issue of a Section 38 Agreement and bond under the Highways Act 1980. A Section 38 Agreement can take some time to complete. Therefore, it is recommended that the developer contact the Highway Authority as early as possible.

It is strongly recommended that the developer contact the Highway Authority at an early stage to clarify the codes etc. with which compliance will be required in the particular circumstances, and it is essential that design calculations and detailed construction drawings for the proposed works are submitted to and approved by the District Council in writing before any work commences on site.

Correspondence with the Highway Authority should be addressed to: Peter Evans, Nottinghamshire County Council, Highway Development Control, Bevercotes House, Fountain Court, Darwin Drive, Sherwood Energy Village, New Ollerton, Notts, NG22 9GS.

5. The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to The Coal Authority on 0845 762 6848.

Further information is also available on The Coal Authority website at [www.coal.decc.gov.uk](http://www.coal.decc.gov.uk)

Property specific summary information on past, current and future coal mining activity can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at [www.groundstability.com](http://www.groundstability.com)

6. In order to avoid impacts to nesting birds we also request that all tree/shrub/hedgerow/scrub and rough grassland removal work be undertaken outside of the bird-breeding season (March-September inclusive). If works are to be carried out during this time then a suitably qualified ecologist should be on site to survey for nesting birds prior to any vegetation clearance. As you will be aware all nesting birds, birds' nests, young and eggs (except pest species) are protected by the Wildlife and Countryside Act 1981 (and as amended). Nesting is taken to be from the point at which birds start to build a nest, to the point at which the last chick of the last brood of the season has fully fledged and left the nesting area. For further information please contact Rachel Hoskin at Natural England Telephone 0300 0602343 or [rachel.hoskin@naturalengland.org.uk](mailto:rachel.hoskin@naturalengland.org.uk)

7. The applicant is advised that it is an offence to destroy habitats supporting protected species such as bats and nesting birds. It is recommended that the views of a qualified ecologist are obtained prior to carrying out any works on site.
