# 1. Introduction

## 1.1: About this statement

Welcome to Ashfield District Council's Infrastructure Funding Statement (IFS). This document sets out the 2020/21 (1st April 2020 – 31<sup>st</sup> March 2021) income and expenditure relating to Section 106 (S106) agreements.

Local authorities, such as Ashfield, are required to produce an infrastructure funding statement on an annual basis, because of recent changes to government legislation<sup>1</sup>. This document is the Council's infrastructure funding statement. For reporting S106 developer contributions, infrastructure can be defined as the following forms:

<b>PHYSICAL</b>	
Transport	Strategic & local highway networks, bus rail, airports, travel management, cycle and pedestrian facilities, car parking.
Affordable Housing	Houses and flats.
Energy	Gas and electricity generation and distribution, renewable energy projects.
Water	Water supply, water treatment, drainage, flood defences, water quality.
Digital	Including broadband and wireless connections.
Waste	Collection and disposal, recycling.
Minerals	Reserves.

<b>SOCIAL</b>	
Education	Primary, secondary, further education, and adult education.
Health	Health centres, GP and dental surgeries, hospitals.
Emergency Services	Police, Fire, Ambulance, community support.
Community Services	Community centres and centres for children, young people, elderly, and those with additional needs. Cemeteries, post offices.
Culture and Leisure	Museums, theatres, cinemas, sport centres, swimming pools, libraries, public art and realm, heritage assets.
Community Projects	Including community groups, local community led projects, training, and volunteering.

<b>GREEN</b>	
Open Space	Parks and country parks, children's play areas, sport pitches and grounds, allotments.
Forestry	Urban forest, woodland.
Biodiversity	Local wildlife sites, local nature reserves, private nature reserves, Sites of Special Scientific Interest, geological sites.

<b>BLUE</b>	
Waterways	Main rivers, small watercourses, canals..

Table 1: Forms of infrastructure

S106 (known as ‘planning obligations’ or ‘developer contributions’) income is used to help fund the provision of supporting infrastructure in association with development and maximise the benefits and opportunities from growth, such as town centre regeneration and affordable homes. This can be onsite, off site or involve financial contributions known as commuted sums, in lieu of provision. Contributions for transport, affordable housing, education, open space, public realm, regeneration, and health are most commonly requested for new infrastructure in Ashfield. Further information on this can be found in Section 2. S106 Contributions.

Developer contributions are normally a key component of any authority’s approach to developing and delivering an infrastructure strategy for their area. Effective infrastructure planning, prioritisation, and governance of spend are critical to supporting the delivery of sustainable development and growth<sup>2</sup>. The Local Plan (Ashfield Local Plan Review 2002), prepared by the Council, is a plan for the future development of the District. The Local Plan (Ashfield Local Plan Review 2002) guides decisions on whether or not planning applications can be granted and details the requirements under which development contributions can be sought. Work is also underway on a replacement plan which, once adopted, will replace the Ashfield Local Plan Review 2002.

This report contains a summary of the financial contributions secured by the Council through S106 agreements from new developments for onsite provision of infrastructure, off-site infrastructure works and affordable housing. This report does not include highway works completed as part of Section 278 agreements (as this is within the remit of Nottinghamshire County Council as the highway authority) or Community Infrastructure Levy (CIL) Tariff payments. The Community Infrastructure Levy (the ‘levy’) is a charge which can be levied by local authorities on new development in their area. Ashfield District Council does not currently operate this charge as part of its development management processes.

Where S106 financial obligations have been secured and received on behalf of Nottinghamshire County Council (NCC) for highways, education or library infrastructure or the NHS Nottingham and Nottinghamshire Clinical Commissioning Group (CCG) for healthcare provision, the obligations will be recorded as spent within this document. NCC or CCG will explain, within their own IFS / reporting, details of how the funding has been used.

The information in this report will be published on the Council’s website and updated annually. <https://www.ashfield.gov.uk/planning-building-control/planning-applications/section-106/>

The information is correct at date of publication. However, committed works for future years may be subject to change due to prevailing economic conditions, new legislation, and revised corporate priorities.

## 2. S106 Contributions

### 2.1 Section 106 (S106) obligations

A Local Planning Authority can seek obligations, both physically on-site for a development and contributions for off-site, under Section 106 (S106) of the Town and Country Planning Act 1990. The obligations assist in mitigating the impact of otherwise unacceptable development to make it acceptable in planning terms. Obligations should only be used where it is not possible to address unacceptable impacts through a planning condition. The obligations must be:

- Necessary to make the development acceptable in planning terms.
- Directly related to the development; and
- Fairly and reasonably related in scale and kind to the development.

As part of the planning process, the development of new housing requires the provision of additional social, physical, and economic infrastructure to avoid a detrimental effect on the surrounding area and the lives of residents. Planning obligations assist in mitigating the impact of development which benefits local communities and supports the provision of local infrastructure.<sup>3</sup>

S106 obligations can include:

- Requirements for parts of a development to be used in certain ways (“in-kind” contributions), for example for affordable housing.
- Requirements for certain works to be undertaken or for other requirements and /or restrictions on the form of the development, for example requiring the development to be car free.
- Financial contributions to address the impacts of development (“off-site contributions”) – usually limited to those cases where it is not feasible to meet policy requirements on site and / or to mitigate specific development impacts, for example the carbon emissions from development.

Planning obligations for affordable housing should only be sought for residential developments that are major developments...For residential development, major development is identified in the National Planning Policy Framework (2019) as development where 10 or more homes will be provided, or the site has an area of 0.5 hectares or more. For non-residential development, it means additional floor space of 1,000 square metres or more, or a site of 1 hectare or more.

Planning obligations should not be sought from any development consisting only of the construction of a residential annex or an extension to an existing home.

*Planning Practice Guidance 2019 Paragraph 023 ‘Planning Obligations’*

<https://www.gov.uk/guidance/planning-obligations>

However, there are specific circumstances where contributions through planning obligations should not be sought from developers. These are:

Monitoring fees can be secured as part of a S106, but the amount secured must fairly and reasonably relate to the development and must be applied to monitoring costs.

## 2.2 Ashfield Local Plan Review 2002

The previous Ashfield Local Plan was adopted by Ashfield District Council in December 1995 with a plan period to 2001. Following adoption of the Nottinghamshire Structure Plan Review in November 1996, work commenced on the Ashfield Local Plan Review with a plan period to 2011. The Council resolved on 5th September 2002, to formally adopt the Local Plan in its modified form. The Council publicly advertised its decision to adopt the Plan (Ashfield Local Plan Review 2002), on the 22nd November 2002.

<sup>3</sup> Guidance Planning Obligations 2019 Paragraph 004 <https://www.gov.uk/guidance/planning-obligations>

Local Planning Authorities such as Ashfield District Council are required under the Planning and Compulsory Purchase Act 2004 to prepare and maintain an up-to-date Local Development Scheme which helps project manage the ongoing production of the Local Plan. As part of the production of a new local plan, the Council prepared a revised Local Development Scheme (LDS) adopted 2018<sup>1</sup>

The LDS represents a public statement of the programme for the preparation of the Local Plan, identifying key milestones and preparation arrangements. It also ensures that infrastructure planning forms an integral part of the evidence base for a new local plan.

The Council prepared an Infrastructure Delivery Plan (IDP)<sup>2</sup> as an evidence base document for the Local Plan in 2016 and was submitted for Examination (Feb 2017). The Infrastructure Delivery Plan brings together infrastructure requirements and information relating to the policies and proposals contained in the development plan. In doing so, infrastructure planning may reveal gaps in public funding for infrastructure provision, which will be assisted by developer contributions.

In 2018, the decision was made to withdraw the Local Plan (2016) and start work on a new Local Plan which, at the time of publication of this document is ongoing.

Planning applications must take into account the saved development plan policies of the Ashfield Local Plan Review (2002) until such time as a new plan is adopted. The saved policies, as identified in the table below (Table 2), set out the Council’s priorities on planning obligations in the context of negotiations on planning applications, with the highest priority given to affordable housing and education. Other priorities include public open space and public realm improvements, healthcare provision and transport infrastructure such as cycle lanes / routes, bus service improvements and traffic flow improvements.

Local Plan Policy Reference	Policy Title
HG1	Housing Land Allocations
HG4	Affordable Housing
HG6	Public Open Space in New Residential developments
TR6	Developer contributions to Transport Improvements
RC3	Formal Open Space

**Table 2: Ashfield Local Plan Review 2002 Policies**

The policies are supplemented by a number of adopted strategies such as the Public Open Space Strategy (2016) which considers the open space requirements for Ashfield for the period 2016 – 2026 and the Playing Pitch Strategy (2017) The Playing Pitch Strategy provides an overview of the provision for various sports in Ashfield for the period 2017 – 2020, which set standards and guide requests for developer contributions.

Ashfield District Council continues to work proactively with infrastructure and service providers (Nottinghamshire County Council for Education and Highways, healthcare providers such as NHS Mansfield and Ashfield & Newark & Sherwood Clinical Commissioning Groups, etc.) to determine the needs arising from the anticipated growth of the District, and to coordinate the requirements with other neighbouring authorities. A significant amount of expenditure for the delivery of services,

<sup>2</sup> <https://www.ashfield.gov.uk/media/8d85025a8aa55c4/infrastructure-delivery-plan.pdf>

including healthcare, education, police, and waste management, is determined based on funding formulae, underpinned by population forecasts.

### 2.3 S106 process for offsite financial contributions

As part of the planning application process, the Council will hold discussions with the developer to ascertain whether onsite infrastructure and/or affordable housing can be provided. If it is determined that onsite provision is not feasible, then a financial contribution will be negotiated with the developer, in the form of obligations in a S106 agreement. The Assistant Director of Planning and Regulatory Services works with development management case officers, developers, and the council's legal team to instruct S106 agreements for new developments, as required.

The Council will liaise with Nottinghamshire County Council to determine the level of primary and secondary education/ library/ and / or transport infrastructure contribution required to meet the needs (or also in the case of transport, mitigation works to minimise the impact) that would be generated by the development. Similar liaison will also take place with NHS Nottingham and Nottinghamshire Clinical Commissioning Group regarding health care contributions required for additional general practitioner service needs generated by the development. The Council's internal Place Team will be consulted to determine the level of public open space or public realm contribution required to meet the needs of the new development.

Once all the contributions have been collated, the requested sums are discussed with the developer and reviewed with regard to the overall viability of the proposed development. The various contributions are set out as time limited or staged payments (known as triggers) in the S106 agreement and will be due for payment by the developer such as on commencement of the works or at occupation of a specific number of houses.

The financial contribution requirement and planning for education is set by Nottinghamshire County Council. Their "Pupil Place Planning and School Capital Strategy" Nov 2017 can be accessed on the link below.

<https://www.nottinghamshire.gov.uk/media/127734/pupil-place-planning-and-new-school-funding-route-policy.pdf>

The requirement for affordable housing is set by the Ashfield Local Plan Review 2002, Saved Policy HG4, p.76 of the Local Plan – see link below:

[https://www.ashfield.gov.uk/media/8d84ff980f87003/full-document-\\_text\\_.pdf](https://www.ashfield.gov.uk/media/8d84ff980f87003/full-document-_text_.pdf)

The financial contribution requirement for public open space and public realm is agreed with the developer to be what is proportionate to mitigate the impact of the development on the local area.

The S106 agreement is usually signed by all parties on the same day as the grant of planning permission. It then becomes an obligation which is registered as a land charge which stays with the land, binding future owners until the terms are fulfilled. The agreement will only be realised however if the planning permission is implemented, and the trigger points are reached.

Many of the S106 projects will be identified as priorities through the Corporate Plan and the Infrastructure Delivery Plan (IDP). The current IDP is being reviewed and updated as part of the work on the new emerging Local Plan. Developers will be required to contribute to the wider infrastructure, which looks to achieve the planning objective of sustainable development, responding to projected population growth and the need for new homes and jobs.

## 2.4 Governance structure for infrastructure delivery

Ashfield District Council has a governance and decision-making structure to ensure that infrastructure is delivered and the community benefits from S106 funding are realised. The governance arrangements are shown in the table below:

Decision making mechanism	Frequency	Purpose
<b>Cabinet</b> Chair: Council Leader	As and when required	Under the Ashfield District Council constitution's scheme of delegation, the Cabinet provides Member oversight for capital spending. The functions reserved to the Cabinet collectively are: <ol style="list-style-type: none"> <li>i. Proposing the Budget and Policy Framework and Capital Programme to the Council and discharging Executive Functions in accordance with the Budget and Policy Framework agreed by Council.</li> <li>ii. Approval to the carry forward of underspends in excess of £15,000.</li> <li>iii. In-year budget re-allocations up to £100k (change from £50k).</li> <li>iv. Reallocation of capital budgets which do not exceed the overall capital programme.</li> </ol> The Cabinet approves the Capital Programme in February. Updates to project programme can be taken to Cabinet throughout the year. Project performance is reported back to Cabinet.
<b>Council</b> Chair: Vice Chairman	Monthly	Capital Programme for new financial year approved at full Council, following approval at Cabinet.
<b>Corporate Leadership Team (CLT)</b> Chair: Chief Executive Officer	Weekly	The Capital Strategy and programme is reviewed in October. Next year's financial budgets are reviewed in November and the draft budget is approved in December.
<b>Regeneration Board</b> Chair: Director of Place and Communities	Bi- Monthly	Projects are generated for development in the regeneration pipeline, in line with the corporate plan objectives and departmental service plans. Project business cases are prepared for approval by the Regeneration Board. Project delivery is monitored by the Council's Performance Team using the Pentana project management system (quarterly updates) and at the regeneration board meetings
<b>Capital programme review</b> Extended Leadership Team (ELT) / CLT/ Finance	Monthly	S106 and grant funding project spend are circulated by the Finance team for comment and review.

### **Stage 4: Regeneration Board**

Throughout the year: projects are generated for development in the regeneration pipeline, in line with the corporate plan objectives and departmental service plans. Project business cases are prepared for approval by the Regeneration Board. Project delivery is monitored by the Council's Performance Team using the Pentana project management system (quarterly updates) and at the Regeneration Board meetings

### **Stage 5: Capital programme review**

Throughout the year: S106 and grant funding project spend are circulated by the Finance team for comment and review. Service are required to provide details of forecast S106 and grant funding usage to the end of the financial year.

## **2.5 S106 Contributions Received in Previous Years**

As set out in Section 2.2, Ashfield Local Plan Review 2002, the Council's IDP sets out the Council's approach to ensuring the delivery of infrastructure to support anticipated levels of growth. Developer contributions and planning obligations are the main means of delivering local infrastructure.

The table below shows that as of 31<sup>st</sup> March 2021, a net S106 total of £1,114,565.86 was spent. A large portion of the funding (£337,052.30) was transferred to Nottinghamshire County Council to fund education places in the district and support a new bus service in Hucknall. The full detail of the education spend will be reported in Nottinghamshire County Council's 2020/21 IFS. Public open space, new affordable homes, transport, health, libraries, and public realm projects in the district made up the balance.

<b>S106 monies</b>	<b>Amount</b>
Total S106 monies received as at 31 March 2020	£4,846,500.72
Total record of S106 contributions received from 1st April 2020 to 31st March 2021	£700,549.80
<b>Total contributions available</b>	<b>£5,547,050.52</b>
Total Spend of S106 from 1st April 2019 to 31st March 2021	£1,114,565.86
<b>Total S106 contributions available after 2019/20 spend (as of 31<sup>st</sup> March 2021)</b>	<b>£4,432,484.66</b>
Balance held for longer term maintenance obligations (included in above)	£51,122.60

**Table 4: Total S106 monies**

The above table shows that as of 31st March 2021, a net S106 total of **£4,432,484.66** was available to fund public open space, education, healthcare, transport, public realm, and affordable housing projects in the district. S106 contributions received from the Larwood residential development at Twickenham Road, Kirkby-in-Ashfield were used to fund affordable homes on the Davies Avenue site (renamed Froghopper Lane) in Sutton in Ashfield. In partnership with social housing and care organisation EMH group and Homes England, 22 new homes are being constructed including six three-bed houses, ten two-bed houses, four two-bed apartments and two bungalows. One of the bungalows is wheelchair adaptable.

### 2.9 S106 Contributions Spent in 2020/21

In most cases, S106 agreements contain clauses detailing specific criteria as to how and where the contributions must be spent. Occasionally, clauses can be less prescriptive, and the associated funding is known as “unrestricted” funds. If there is no pressing need for the area to which the agreement refers, these funds may be held by the Council for a period of up to five years following the grant of planning permission until such time as a suitable need is identified.

Within the reported year, the total amount of S106 funds received by the Council that have been both allocated and spent, or transferred to another party amounts to **£1,114,565.86**

Of the funded schemes, many of them are at different stages of delivery. The schemes are detailed below under obligation type headings:

- Housing

The Council spent £284,000 of S106 affordable housing contributions during 2020/21 on the Davies Avenue site (now renamed Froghopper Lane) in Sutton in Ashfield. In partnership with social housing and care organisation emh group and Homes England, the site will see 22 new homes built, including six three-bed houses, ten two-bed houses, four two-bed apartments and two bungalows. One bungalow is wheelchair adaptable.

- Education

Ashfield District Council made Education payments totalling £107,052.30 to Nottinghamshire County Council in 2020/21. Of this sum, £97,052.30 came from the Rippon Homes development on Mansfield Road, Skegby (V/2012/0556) and £10,000 came from The Twitchell housing development V/2014/0045. Nottinghamshire County Council will report separately on the spend of this funding as part of their Infrastructure Financial Statement.

- Transportation

Ashfield District Council made payments of £429,602 Transport (TR6) to Nottinghamshire County Council in 2020/21. The funding came from the development on land at Broomhill Farm (V/2013/0409) and the Rolls Royce housing development (V/2013/0123), both located in Hucknall. Nottinghamshire County Council will report separately on the spending of this funding as part of their Infrastructure Financial Statement.

The Council completed delivery of the Kirkby footpaths/cycle ways project which comprised works to improve footpaths in the vicinity of Larwood Park housing development. Approximately 1.7km of existing footpath were cleared to the original width and resurfaced, with approximately 600m of new footpath constructed. Six pedestrian access points were improved and made more accessible as part of the works. The funding for the works came from planning application Larwood Park V/2013/0656. A S106 contribution of £30,469.72 was spent on the works. £766.84 TR6 funding was also spent on works at Sutton Lawn.

- Business employment and skills

The Retail Improvement Scheme through a variety of grants helped 10 businesses within Ashfield. Eight grants were given for business start-ups and assistance with business growth. One grant was given for shop front improvements, along with one vacant shop grant. The S106 funding came from V/2010/0433 Former Annesley Colliery.

- Regeneration  
The main regeneration project the Council progressed during 2020/21 is the ongoing Leisure Transformation Programme. The programme includes the development of a new Leisure Centre in Kirkby to replace the Festival Hall facility. Funding for the works came from planning application Land at Lindleys Lane in Kirkby V/2005/0396. A S106 contribution of £3,000 was spent on this programme during 2020/21.

## 2.10 Planned expenditure for future years

This section sets out how S106 income will be spent in the District of Ashfield. It is difficult to forecast future S106 income and expenditure exactly as contributions are negotiated on a site-by-site basis and depend on several considerations such as viability. S106 funding is often closely linked to the phasing of the development as set out in the terms of the legal agreement and can contain clauses relating to the timing (triggers) of the spending. The impact of the current pandemic has had an effect on delivery and the longer-term impacts on the construction industry are unclear.

Once complete, the Infrastructure Delivery Plan accompanying the Local Plan will also set out the required infrastructure to deliver the identified site allocations. Whilst this will not detail specifically the cost of various infrastructure items, it will provide an overview to developers and the community of the expected contributions.

Planned expenditure for future years sets out how unallocated funds should be spent.

The information below sets out the planned expenditure and funds remaining for the current S106 balance. With regard to the following funds :

- Transport: Spend on projects undertaken by Nottinghamshire County Council will be reported separately as part of their Infrastructure Financial Statement).
- Affordable Housing: £200,000 Planned expenditure, £ 797,887.99 remaining to be allocated to specific projects.
- Education: £1,337,966.47 remaining to be paid to Nottinghamshire County Council on confirmation of suitable projects. Spend will be reported by Nottinghamshire County Council as part of their Infrastructure Financial Statement).
